

made to him are sales made within the State even if the seller knows in the particular instance that the customer resides outside the State. On the other hand, a sale is made to an out-of-State customer and therefore, is not a sale made "within the State" in which the enterprise is located, if delivery of the goods is made outside that State, or if the relationship with the customer is such as to indicate his out-of-State character. Such a relationship would exist, for example, where an out-of-State company in the regular course of dealing picks up the petroleum products at the bulk storage station of the enterprise and transports them out of the State in its own trucks.

§ 794.129 Sales "made within the State" not limited to noncovered activity.

Sales to customers located in the same State as the establishment are sales made "within the State" even though such sales may constitute activity within the interstate commerce coverage of the Act, as where the sale (a) is made pursuant to prior orders from customers for goods to be obtained from outside the State; (b) contemplates the purchase of goods from outside the State to fill a customer's orders; or (c) is made to a customer for his use in interstate or foreign commerce or in the production of goods for such commerce.

SALES MADE TO OTHER BULK DISTRIBUTORS

§ 794.130 Not more than 25 percent of sales may be to customers engaged in bulk distribution of petroleum products for resale.

As a further requirement for exemption, section 7(b)(3) limits to not more than 25 percent (measured by annual dollar volume) the sales which an enterprise engaged in the wholesale or bulk distribution of petroleum products may make to customers who are engaged in the bulk distribution of such products for resale. It should be noted that this limitation does not depend on whether the goods sold by the enterprise to such customers are sold by it for resale, or on whether the goods sold to such customers are petroleum products. It is whether the cus-

tomers is engaged in selling petroleum products for resale that is controlling. A sale of any goods must be included in this 25 percent limitation so long as it is made to a customer who, as described in section 7(b)(3), can be characterized as one "engaged in the bulk distribution of such products for resale". It should be also noted that this provision does not in any way limit the sales which the enterprise may make to customers who are not engaged in the bulk distribution of petroleum products for resale. Thus, there is no limitation on the sales the enterprise may make to gasoline service stations which sell such products for resale but do not engage in the "bulk distribution" of the products so sold, or to any other customers except those specified in the exemption in section 7(b)(3). Who is a "customer engaged in the bulk distribution of such products for resale" is discussed in §§ 794.131—794.133.

§ 794.131 "Customer * * * engaged in bulk distribution".

A sale to a customer of an enterprise engaged in the wholesale or bulk distribution of petroleum products will be considered to come within the 25 percent limitation for purposes of the exemption under section 7(b)(3) if it is made to a "customer who is engaged in the bulk distribution of such products for resale". The identity of such customers is generally well known in the trade. For example, this would generally include other petroleum jobbers, brokers, wholesalers, and any others who engaged in the bulk distribution of petroleum products for resale. Thus a sale to a petroleum jobber who is engaged in selling petroleum products to gasoline stations would clearly be a sale to a customer described in section 7(b)(3). The essential tests are: first, that the customer must be one who is engaged in the distribution of "such products", which means petroleum products; second, that he must engage in "the bulk distribution" of such products; and finally, that he must be engaged in such distribution "for resale". These three requirements are discussed in §§ 794.132 through 794.134.
